#### WHY IS THIS EVENT IMPORTANT?

The Center has not only become a safe haven for numerous families and children but also for these families' pets. Many victims and survivors of abuse refuse to leave their abusers for fear of what will happen to the family pet. In

2011 the Center launched the Paws for Safety Program in response to this growing issue. Through this vital program victims and survivors can temporarily place their pets in a safe, confidential location while accessing the Center's services. Knowing their beloved pet is safe from harm victims and survivors are able to focus on making safer arrangements and escaping abuse.
